

Join BCS Partners

The network for a better digital world

Join our network and shape a better digital future

As a collective voice of industry leaders we can drive framework adoption, close skills gaps and raise the standards of our industry.

It's time you became part of something better.

Become a BCS Partner at partner.bcs.org

Discover who makes up our industry-leading network at partner.bcs.org/findapartner

The BCS Partner Programme will be operated by BCS Learning and Development Ltd, a company incorporated in England and Wales (number 1005485) with registered office at First Floor, Block D, North Star House, North Star Avenue, Swindon, SN2 1FA, and a wholly owned subsidiary of The British Computer Society.

Introducing the BCS Partner Programme

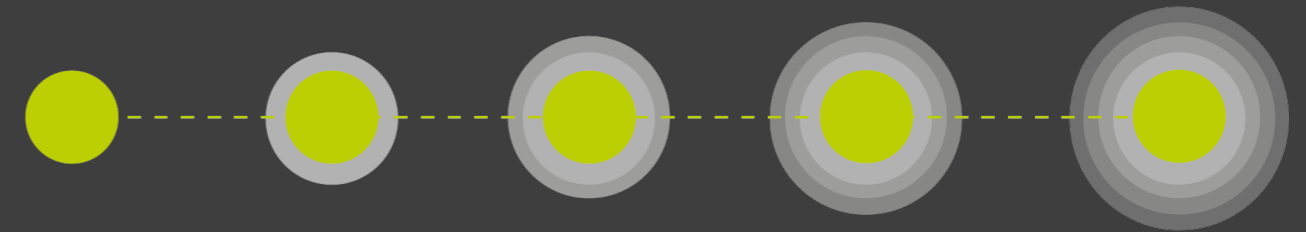

Join the network of growing opportunities

As the Chartered Institute for IT, we've developed a network that will shape a better digital world.

The BCS Partner Programme connects business, educators, subject matter experts, trainers, Government departments and IT professionals, to create a powerful network of knowledge, skills and talent to identify and build solutions around key challenges for the future.

Become a BCS Partner

Whether or not you're already working with us, becoming a Partner is simple. Size doesn't come into it. Our Partner Programme works on a points accumulation basis.

The more you are involved with BCS

The more points you earn

The higher your Partner status

The more benefits you receive

The more opportunities you have to engage with BCS and the Partner Network

Join the network raising digital standards

BCS Partners are involved in developing and delivering high quality products and curriculum, for the benefit of all. As a collective force, we can drive framework adoption, close skills gaps, and set new industry benchmarks.

A network you need to be part of

As a BCS Partner, being first in line for potential new opportunities isn't the only benefit.

You will also be involved in the development of new products and curriculum, enjoy online access to exclusive content, take part in specialist events, and help influence the future direction of BCS and the digital community.

What's more, you'll gain the recognition of your customers and peers as working alongside BCS and our Partners to help shape a better digital world.

Join the network that will stand apart in value

Unlike other Partnership programmes, we measure our Partners on the value they bring, rather than simply the revenue they make. Each Partner is committed to making IT good for society.

Partnership levels

The BCS Partner Programme has different levels, defined by the involvement the Partner has with BCS and the wider community.

- **Partners** work on developing BCS products and are involved in public projects
- **Silver Partners** identify skills gaps and find solutions, bringing their expertise to community projects
- **Gold Partners** are industry leaders, working with BCS to build a better digital future and have a high profile commitment to making IT good for society.
