

You can join BCS Partners at one of three levels, Partner, Silver Partner or Gold Partner. We determine these levels by looking at your involvement with BCS and the wider community, and each activity generates Partner points to create a total score.

The elements below are suggestions of how you can accumulate Partner points. It is not an exhaustive list, so if you would like another activity with BCS or the community considered as part of your application, please let us know.

Partners will be measured on the following areas: Business Commitment, Business Quality, Community Involvement and BCS Engagement. All Partners will be committed to making IT good for society.
